• Learn more about the method and introduce it to learning process

WHAT DO STUDENTS GAIN FROM FLIPPED LEARNING?

- Developing responsibility
- Certain degree of time management
- Better preparation for lab work

GOALS OF THE LESSON:

Lab work

- Acquire knowledge on the topic of variability within species.
- Recognize the differences between organisms.
- Represent the data in the form of graph and spreadsheet.

Namen vaje

- Spoznati raznolikost znotraj vrste.
- Prepoznati razlike med posameznimi organizmi.
- Zbrane rezultate predstaviti v obliki grafa in tabele.

Opinion of the students

WEAKNESES

- Free version of the app Zaption only enables us to see the first five answers, with the others we only see their progress in watching the video and how many answers they answered.
- We can not be sure that the students will see the video in time.
- I dislike the idea of giving my students homework.
