A BIG Future Architecture Platform FAMILY

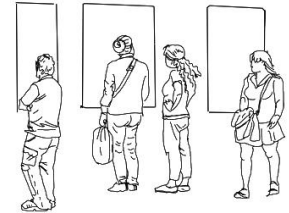

An aerial photograph of a city, likely London, with a prominent wireframe dome structure overlaid on the scene. The dome is a complex, multi-layered structure with a central spire, resembling a modern architectural design or a digital overlay. The city buildings are visible in the background, and the overall image has a red tint. The text "ACTIVATE MODERN RUINS!" is centered over the image.

‘The strategic goal [...] is the recultivation and improvement of degraded environment, building land recycling, and activation of brownfield locations,

i.e. preventive protection from all planned activities
which may jeopardise the existing quality of the environment.’

An aerial photograph of a city, likely New York City, showing a dense grid of buildings and streets. A prominent feature is a large, white wireframe dome structure overlaid on the city, resembling the dome of the United States Capitol building. The entire image is tinted with a deep red color. The text "THANK YOU" is centered in the middle of the image in a bold, black, sans-serif font.

THANK YOU
