

OPEN SOURCE EDUCATION & TRAINING TOOLS

Tremendous number of resources **that the healthcare ought to tap into and start using:**

- open source software, open apps, open data,
- **open source course management,**
- **open source learning management system,**
- **open access materials**
(lectures, peer reviewed free/open textbooks, open access journals, etc.)
- open source training programs,
- open source 3D simulation tools,
- open source 3D to create virtual reality environments
- open source e-learning software suite,
- open education & training communities,
- online repository of freely licensed, sharable educational photos and images,

and much more...
