

**Roberto Ranzi**

**Collective experiences from the 2-year International  
summer schools in Ljubljana, Slovenia:  
the students' perspective**

*Univerza v Ljubljani*

*"This project has been funded with support from the European Commission. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein."*

- 1 week video lectures
- 2 weeks of face-to-face lectures

# International summer schools

## ENVIRONMENTAL PROTECTION

Ljubljana, June 27<sup>th</sup> - July 17<sup>th</sup>, 2016

### Main goals:

- present scientific knowledge about environmental and resource management
- explain the vulnerability of the environment owing to different sources of pollution
- solve environmental problems with the coordination of all relevant participants
- transfer of the results to policy makers, local authorities and engineering companies

Univerza v Ljubljani

## NATURAL DISASTERS

Ljubljana, May 21<sup>th</sup> – June 10<sup>th</sup>, 2017

### Main goals:

- discussion about natural disasters (i.e. floods, droughts, landslides ...)
- use of spatial analyses and GIS in environmental management
- Studying preventive and response measures
- Interdisciplinary approach blending technical and social sciences

and more important...

## Enjoying Ljubljana

...and I learned how to  
take  
the first selfie of my life

A nighttime photograph of a city street scene. In the foreground, a river reflects the lights from buildings and street lamps. A bridge with white railings crosses the river. In the background, a church with a prominent dome and spire is illuminated. The sky is a deep blue, and the overall atmosphere is serene and urban.

Thank you for your kind attention
