GERHARDO VOSSIO

S. P. D.

HADR. BEVERLAND.

Jam dudum ultimis tuis aliquid repofuiffem, ni patris tui doibus me inhibuiffet morbus. Nun languidus coram D. V. Cyters Legato, Colomefio Scott, & me ultimo fuo fubferipfit elogio. Licee inflanti feneffuti ftuxerat nidum, tamen teftament fcedio prafagium certiffima mortis. Nam fape mi hi male fufpicax dicere folebat. Simulac fecerit te flamentum, heres me tollet veneno. Poff triduum abire jufius expiravit. Hic calus nos omnes ingent proffravit meorore. Soror tua, poftquam nihil invenit in loculis, ut tignis orbata navis. O cælum! terra! maria! Ego ut ejus hanc Bibliandibus extollo, eiq proffravaveri, nec mefficienti.

5 Ex quo incubis barbam vofella evulsi, me indignis afficere poenis ftatuere glabri. Athei fuligine me perficiant. Ne illatam hanc iniuriam vindicem operam dant ut in arce Loevefteiniana cahalam animam. Mufice vivo. Animum ipfe meum erigo cum totus fum in hiftionibus larvam detrahendo et irritui atque execrationi proiceris, non habere vivendi. Amici vigilis, sermonibus atque fabellis me cotidie reficiunt. Dolorem meum de fingulari tua eruditione ac acumine mentio. Dolorem meum levant tua epigrammata quae olim in Van Aalst, Gools, Van Gaveren, le Maire compofuiffi. Impatienfer videre gefcio omnia publici iuris facta. Si tam erudit ingenium aestimaretur, quo Curio Zelandi fuis diffufi viribus opinarentur te eodem, quo nactum et Boxhornium fufceptum femine. Rogo ut unicolam Verfufyium admones ne tam temere ac infule de me loquendo se totum proffruat. Erit non mediocre mihi folacium fi abfentem tuo patrocinio adiuveris. Vale.

Sinds het moment dat Beverland de fpaoken de baard heeft geplukt, hebben ze befolten hem met ftraffen die hij niet verdiend heeft, klein te krijgen. Ze wrijven hem atheisme aan Om hem de kans te ontnemen die onrecht te wreken willen Zij dat hij in slot Loeveftein de geest geeft. De ftrijd houdt hem recht. Vrienden pogen hem dagelijks op te beuren. Vaak is er fpraak over de eruditie en fcherpzinigheid van Le Fer. Zijn fchimpgedichten op Van Aalst, Gools, Van Gaveren en Le Maire verlichten Beverlands fmarft. Graag had hij die gedrukt gezien. Le Fer moet Verfufy wat minder laten roddelen over Beverland.

- 25. Commentaar

- 5: arce Loevefteiniana: slot Loeveftein dat dienst deed als ftatsgevangenis (cf. supra brief 24).
