OE Leadership Challenges

- The Core Challenges of OE
 - Universal access
 - The producer-user dilemma
 - Does informal education work?
 - Is there an open pedagogy?
 - The reality of reuse
 - Business models vs. free and universal

OE Leadership Challenges

- Fundraising

- The Hewlett Foundation has acknowledged and bemoaned its lonely role as the only stable non-governmental funding for global OER infrastructure.
- What are the implications of this for new leaders?
 - Pivot toward existential issues, e.g. public health, climate crisis?
 - Openness as a tool for eliminating friction in information transmission and educational resources?

OE Leadership Challenges

- The role of the Board
- The Executive Director
- The role of staff
- What actions?
