All Openly Licensed, allowing free reuse, even commercially

5 core uses

1. An open identifying system

- ✦ URIs can be used as common identifiers among a variety of organisations
- ✦ Can be used without reference to OpenCorporates
- ✦ Because they map to the id issued by the company register the corresponding entry in the registry (and associated info) can be found, and vice versa
- ✦ Fits the new EU Business Vocabulary
- ✦ Can even be used for companies in jurisdiction we haven't yet imported

2. The simple search

- ✦ Not to be underestimated
- ✦ Massively reduces friction (how long will it take you to find and search multiple jurisdictions)
- ✦ Allows what if questions
- ✦ Potentially generates stories in its own right

Using <http://opencorporates.com> to look up where companies are likely to be paying tax is pretty

Store danske virksomheder glade for skattely

Knap hver femte store danske virksomhed har datterselskaber i skattelylande. Mens især rederier og banker benytter sig af selskaber under varmere himmelstrøg som Bermuda og Gibraltar, er virksomheder inden for industri og landbrug fraværende. Samtidig ligger SKAT's udvekslingsaftaler med selvsamme skattelylande næsten ubrugte hen. Opposition kræver flere penge til SKAT.

SELSKABER

Destinationer som Bermuda og Gibraltar er ikke bare attraktive for solhungrende turister, mens også for veletablerede, danske virksomheder.

Således har næsten hver femte af Danmarks største virksomheder etab-

Ifølge professor ved Aarhus Universitet og ekspert i selskabsbeskatning og skatteret Jan Pedersen dokumenterer oplysningerne, at danske virksomheder er med i den globale kamp om skattefordele. Han understreger, at han ikke kender de konkrete omstændigheder, men siger:

»Man kan jo klart have en formod-

blot er ét af de 130 lande i verden, hvor Mærsk har aktiviteter. Han understreger, at skatteforhold bør være et nationalt anliggende for det enkelte land.

»Selskaberne er ikke oprettet af skattemæssige årsager. A.P. Møller Gruppen driver international virksomhed, der kræver tilstedeværelse i stort set samtlige lande. Derfor er gruppen også sel-

3. Source for additional info

- ✦ Addresses, filings, status, websites...
- ✦ Intl trademarks, UK govt spending, official notices, health & safety violations...
- ✦ Other IDs: SEC, CAGE, etc – allows reverse mapping queries, e.g. show me legal entity mapped to a CLK code

4. Reconciliation (matching names to legal entities)

Clean up messy company names (& prev names) to legal entity, and from there to other data

Google Refine reconciliation service (specific to jurisdiction)

The screenshot displays the Google Refine reconciliation interface. On the left, the 'Facet / Filter' panel shows two active facets: 'Donor type' with 3 choices and 'Company reg. no.' with 1 choice. The 'Company' facet is selected, showing 787 records. The main table displays 787 matching records out of a total of 33821. The table has columns for 'All', 'EC reference', 'Entity name', 'Entity type', and 'Regulated donee type'. The records are sorted by name count.

All	EC reference	Entity name	Entity type	Regulated donee type
★	2253. C0002254	The Rt Hon Peter Hain MP	Regulated Donee	Leadership Candidate
★	2410. C0002411	Mr Boris Johnson MP	Regulated Donee	MP - Member of Parliament
★	3046. C0003048	Mr Oliver Letwin	Regulated Donee	MP - Member of Parliament
★	3056. C0003058	Ms Philippa Stroud	Regulated Donee	Candidate
★	3064. C0003066	Ms Philippa Stroud	Regulated Donee	Candidate
★	3114. C0003116	Mr Douglas Alexander MP	Regulated Donee	MP - Member of Parliament
★	3183. C0003185	The Rt Hon	Regulated	Leadership Candidate

5. The platform

- ✦ API: allows all information to be retrieved as data, even searches
- ✦ Users can now add data too
- ✦ Coming soon: the option to match data to companies

The screenshot displays the OpenCorporates API page. At the top, the logo 'opencorporates' is followed by 'API' and the tagline 'The Open Database Of The Corporate World'. A 'REST API introduction ::' section is visible, with a contributor named 'James' who joined on November 24, 2011. Below this, there's a search bar and a section for 'MAERSK corporate grouping *' which lists 205 companies. One company listed is 'MAERSK POLSKA SPÓŁKA Z OGRANICZONĄ ODPOWIEDZIALNOŚCIĄ' (Poland, 10 Jul 2001-). Other branches listed include 'A.P. MOLLER - MAERSK A/S (United Kingdom)'. A sidebar on the right shows 'Latest data for these companies' with a 'UK GAZETTE NOTICE' and 'COMPANY ADDRESS' for 'TEES WHARF, DOCKSIDE ROAD, MIDDLESBROUGH, CLEVELAND, TS3 6AB, United Kingdom'. At the bottom, there's a 'Vat Number' section with the text 'This information appears* to relate to No definite companies. Match possible company(ies) now?' and a search for 'International Training Service (ITS) Ltd' with the number '238840151'.

New feature: directors/officers

We've just started importing & indexing company directors & officers, allowing search by name, & finding links between them and other companies

The screenshot shows the OpenCorporates website interface. The top section is the search page for 'Company officers with names matching 'mitt romney' :: Page 1'. It features a search bar with 'mitt romney' entered and a 'Search' button. Below this is a detailed profile for 'W MITT ROMNEY' at 'HEALTHCARE ACQUISITION, INC.'. The profile includes fields for 'Company', 'Name', and 'Position' (director). It also lists 'Other resources' such as Google and LittleSis search links, and 'Other officers in HEALTHCARE ACQUISITION, INC.' including Ernest K Jacquet and Mark L Plaumann. A 'Similarly named officers' section on the right lists other individuals with the name 'W. MITT ROMNEY' at various companies like BAIN CAPITAL INVESTORS VI, INC. and BALTCO, INC. Two blue arrows are overlaid on the image: one pointing left from the 'similarly named' text to the 'Other resources' section, and another pointing right from the 'similarly named' text to the 'Similarly named officers' list.

How have we done it?

1. Started small, with just three countries and 3 million companies

2. Increasingly using official sources, where this is possible (i.e. the company registers are open and make data available)

The screenshot shows the 'opencorporates' website, 'The Open Database Of The Corporate World', with an 'alpha' badge. It features a search bar and a 'Search' button. Below the search bar, there are two main sections: 'We have information on 3,896,898 companies' and 'Use Google Refine to match companies in your data'. The first section includes a 'Filter by jurisdiction' list with counts for Bermuda (41,002), Jersey (32,620), and United Kingdom (3,823,276). The second section includes a 'See screencast now' link and a screenshot of a data table with 2267 rows. Below this, the 'Companies House' logo is visible, followed by a navigation bar with 'Home | About Us | Contact Us'. The main content area is titled 'Companies House Output XML Gateway' and contains a sidebar with links like 'About the XML Gateway', 'Interface Spec', 'XSD Schemas', 'XML Gateway Data Usage Guide (PDF 0.8MB)', 'FAQs', 'Registration', 'Error Codes', and 'Price List'. The main content area has a heading 'About the XML Gateway' and sections for 'Introduction', 'Pre-requisites', and 'Software Filing'.

How have we done it?

3. Leveraged the open data community and ScraperWiki to scrape company registers around the world

4. Worked with governments to help understand the problems – EU, World Bank, G20 Financial Stability Board, etc

The image shows a screenshot of the ScraperWiki website. At the top, the ScraperWiki logo is visible, along with navigation links for 'Code', 'Business', 'About', and a user profile 'countculture'. Below this is a search bar and a navigation menu with 'New Scraper', 'New View', 'Browse Scrapers', 'Premium Accounts', and 'Help & Docs'. The main content area features a scraper entry for 'Páll Hilmarsson / Greenland corporations'. This entry includes a Python icon, the URL 'soeg.ger.gl', a clock icon indicating it 'Runs every day', a record count of '16,821 records', and a 'Protected' status. Action buttons for 'Edit', 'Copy', 'View Source', and 'Share' are present. Below the scraper entry, there are sections for 'CURRENT STATUS' (Idle – next run in 17 hours, 14 minutes) and 'LAST RUN' (6 hours, 45 minutes ago). To the right, an 'ABOUT THIS SCRAPER' section states 'This scraper has no description.' and shows 'Protected' and '1 editor' status. Below the scraper entry is the 'Companies House' logo and a navigation bar with 'Home | About Us | Contact Us'. The main content area is titled 'Companies House Output XML Gateway' and contains a sidebar with links like 'About the XML Gateway', 'Interface Spec', 'XSD Schemas', 'XML Gateway Data Usage Guide (PDF 0.8MB)', 'FAQs', 'Registration', 'Error Codes', and 'Price List'. The main content area has a section titled 'About the XML Gateway' with an 'Introduction' and 'Pre-requisites' section.

The technology

Vanilla, commodity open-source software, hosted on our own UK-based servers

Database	MySQL (but considering PostgreSQL)
Search	Solr (but considering ElasticSearch)
Code	Ruby (RubyOnRails main app, Sinatra API, vanilla Ruby for various internal libraries)
Webserver	Nginx (webserver) + Memcached (caching) + Redis (queue + persistence)

How do we pay for all this?

- ✦ Unlike many open data projects, we're a for-profit company – the open data movement needs successful companies if it's going to have a diverse ecosystem
- ✦ But we're a company whose business model is dependent on making more data open, and an advisory board to make sure we do the right thing
- ✦ Not yet looking for customers, but...

How do we pay for all this?

Two projected sources of income

- ✦ **Services model**, especially around cleansing data/reconciliation. Of course, you can use our API, reconciliation service without asking us, but it may be cheaper to pay us to do it. Ditto custom extracts, and verticals
- ✦ Dual-licence model – contribute back to the community either with data, or financial support, e.g. if you have a proprietary database you may not want to be bound by the share-alike attribution restrictions
- ✦ And we already have some (small) customers

The problems

Getting the data Company registers have forgotten their main role is as public record, and actively work to prohibit free and open access to the data

The problems

Céginformációs és az Elektronikus Cégeljárásban Közreműködő Szolgálat
1054 Budapest, Kossuth tér 4.

[Kattintson ide](#) az elektronikus cégeljárás útmutatókhoz és az elektronikus fizetéshez szükséges utalványmintákhoz!

Tisztelt Ügyfelünk!

Üdvözöljük az Közigazgatási és Igazságügyi Minisztérium Céginformációs és az Elektronikus Cégeljárásban Közreműködő Szolgálatának honlapján!

Ezen a honlapon INGYENESEN megismerhetők a megyei (fővárosi) cégbíróságokon vezetett cégjegyzékekben szereplő alábbi adatok:

I) **Az adatok lekérdezésének időpontjában, a cégjegyzékekben szereplő adatként ismerhető meg a cég fennálló vagy törölt**

- a) cégjegyzékszám, a
- b) cégneve, b)
- c) székhelye, c)
- d) telephelye, d)
- e) fióktelepe, e)
- f) főtevékenysége, f)
- g) jegyzett tőkéje, g)
- h) adószáma, h)
- i) továbbá az, ha a cég felszámolási vagy végelszámolási eljárás alatt áll. i)

II) **A hét első napján frissített adatként ismerhető meg:**

- a) a cég cégjegyzékekben szereplő valamennyi fennálló adata (tárolt cégkivonat), valamint a bejegyzési (változásbejegyzési) rögzített, még be nem jegyzett adatai, a)
- b) csoportosított céginformációként a jogi személy, jogi személyiség nélküli gazdasági társaság, vagy egyéb szervezet cégneve, minősége, képviseleti jogosultsága, vagy természetes személy képviseleti jogosultsága, felügyelőbizottsági tagsága. b)

A cégjegyzék adatai közül azok kerülnek frissítésre, amelyekben a korábbi állapothoz képest változás állt be. Tájékoztatóként a hét első napján frissített adatok az interneten működő keresőprogramok útján is megismerhetők.

A honlapon megismerhető céginformáció cégnevével, vagy cégjegyzékszám, vagy adószám megadásával, a II. b) pontban meghatározott (cégnevével) megadásával, cégkeresési program segítségével érhető el.

Az ingyenes céginformációk tájékoztató jellegűek, és hiteles okiratként nem használhatóak fel. A Céginformációs Szolgálat ingyenesen nem terjed ki a céginformáció olyan biztosítására, amely a cégjegyzék adatai egészének, illetve annak jelentős részének megszerzését célozza.

A rendszer funkciói a képernyő bal oldali menü sávjában választhatók ki, az eredmények pedig a jobb oldali eredmény ablakban jelennek meg. A honlapon a felhasználó számára a honlap használatára vonatkozóan tájékoztatást talál az útmutatókban.
