Annie "PYT" W. says:

5/2

I know I can look at the reviews and such, but I want to know from the experts: Is there good Chinese food in Charlotte? And if so, where do I find it?!

My bro is coming to town from Fort Bragg where there is only Chinese fast food (which we know is not really Chinese food) and has been craving good food. I know I shouldn't be expecting anything close to Rowland Heights/SGV/Monterey Park level authenticity, but, a girl can dream, right?

And, this is probably asking way more than Charlotte has, but are there any Taiwanese food places, at all?? (Taiwan Express is not Taiwanese D:)

Thank you Yelp-tastic people.

Julia "A Jaundiced but Smiling Eye" S. says:

5/2

Fu Lin <http://www.yelp.com/bi...> ain't foolin' around. Dragon Court, in the Asian Corners Mall, is good, but the three veg friendly dishes to choose from. Supposedly they do dim dum on the weekends, also not veg friendly. Dim Sum, on central, is good, if you know what to ask for.

NO idea on Taiwanese - we haven't even graduated to using Szechuan pepper in good ol' Charlotte, which is lame, lame lame.

Faith "Does what feels right" D. says:

5/2

I'm not sure about authentic, but here goes...The most recent one that was fast and good was Bei Jing in South End (brand new).

DragonFly on Park is pretty good, but last time I was there they turned me away. I'm boycotting until I get a chance to try it. :)

I also got a menu in my door from Lotus II (they deliver within 5 miles). I haven't tried it, but I may order out

New metrics for
search result
quality are needed

$$MAP(Q) = \frac{1}{|Q|} \sum_{j=1}^{|Q|} \frac{1}{m_j} \sum_{k=1}^{m_j} Precision(R_{jk})$$

$$NDCG = \frac{DCG}{iDCG}$$

Relevance quality metrics

*“I don't know them
that well...”*

*“...may not
appreciate their
names up there...”*

Relevance not a consideration at all!

Socially-Embedded Search Engines

$$MAP(Q) = \frac{1}{|Q|} \sum_{j=1}^{|Q|} \frac{1}{m_j} \sum_{k=1}^{m_j} Precision(R_{jk})$$

$$NDCG = \frac{DCG}{iDCG}$$
