Cloud for CIOs: An emotional story

Damianos Soumelidis Hexa Business Services October 2012

Cloudsourcing Outsourcing Consulting Engineering

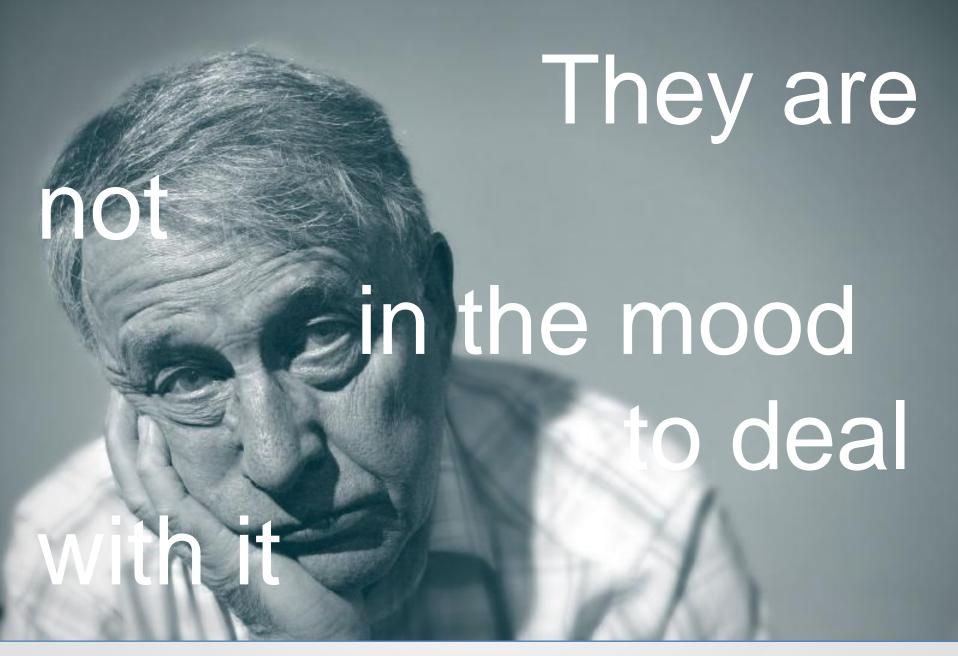

There are at least 3 reasons why people are willing to pay or buy more:

There is notenough time to take care of it

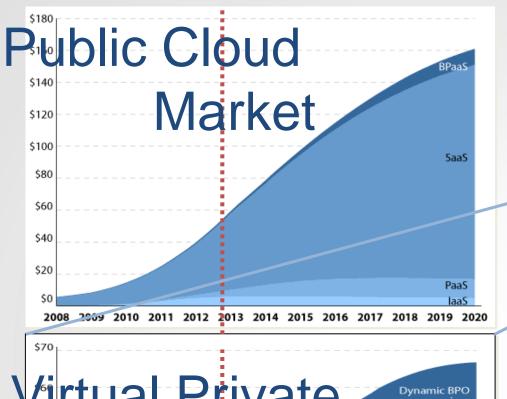

Megatrend Convenience

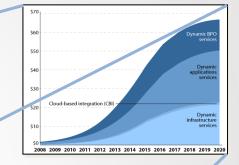

Megatrend:

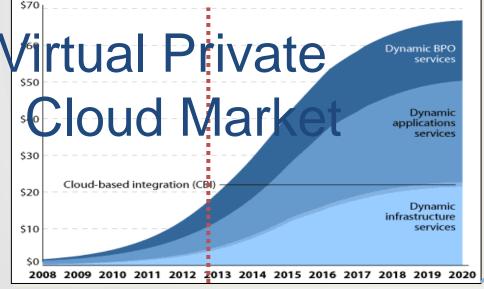

"Megatrends (...are) large social, economic, political, and technological changes (...), they influence us for some time between seven and ten years, or longer." John Naisbitt

700%

To be involved in a plane 5.400.000 crash: killed: 9.200.000

planecrashinfo.com

There are ountless reasons, why something may not work.

"Cloud Services are unreliable. I want to keep our data close to us"

"I can't set half of a SysAdmin free"

"The migration more than costs me I would save that with Cloud Service"

"The US government will sneak into data and will steal my intellectual property"

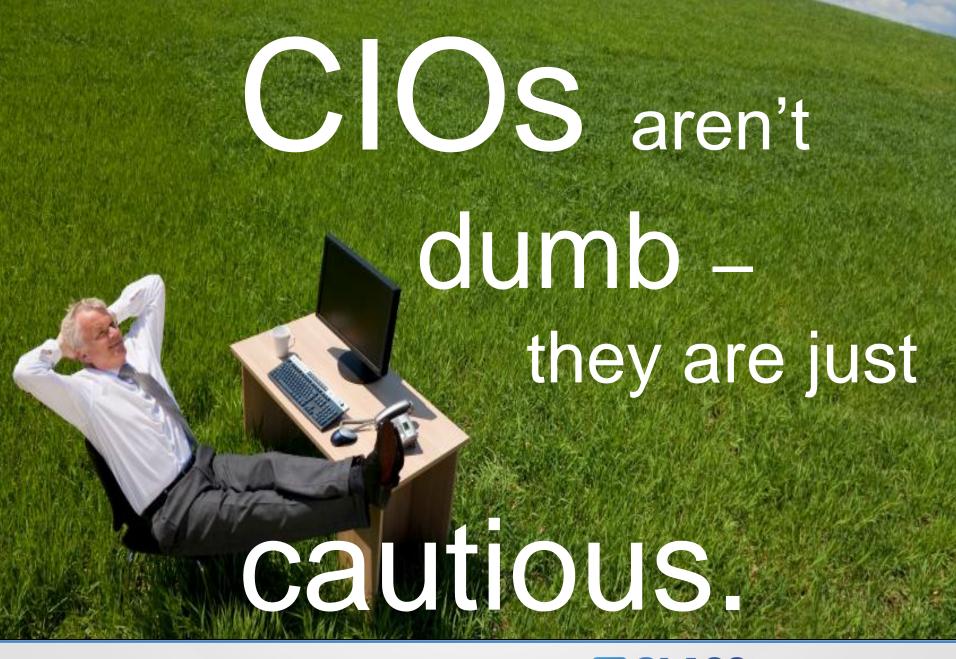

Sales is important...
