

# Welcome to Getting Started with Open Education

## Facilitators:

Mary Lou Forward, OCW Consortium

Gijs Houwen, Delft University of Technology

Ignasi Labastida, University of Barcelona

Igor Lesko, OCW Consortium

Alek Tarkowski, Creative Commons Poland

Edmundo Tovar, Polytechnic University of Madrid

Fred Truyen, KU Leuven

Willem van Valkenburg, TU Delft

Unless otherwise indicated, this presentation is licensed CC-BY 4.0

## Workshop objectives:

1. Provide an overview of open education along with specific project examples
2. Provide information about copyright and open licensing, along with hands-on activities to demonstrate how they work
3. Help participants develop open education strategies, including:
  1. Creating a community of support for open education at your institution;
  2. Understanding important aspects of open policies;
  3. Outlining an action plan appropriate to your situation

# What is Open Education?

# Open Education starts with basic ideas:

- *Education builds the future.*
- *Education is sharing.*
- *Open allows more rapid building and sharing at a larger scale.*

# Open Education

## *Terms*

Open Educational Resources

OpenCourseWare

Open Textbooks

Open Data

Open MOOCs

Open Access

Open Educational Practice

= Free and Open

# Open Educational Resources (OER)

OER are teaching, learning, and research materials that make use of appropriate tools, such as open licensing, to permit their free use and re-purposing by others.

Free  
no cost
