# Prostorski učinek

*... je vsak učinek na rabo prostora, upravljanje z njim ali širše na gospodarstvo, družbo in okolje v izbrani prostorski enoti, ki je posledica uveljavljanja predpisa (EU in prenosa njegovih določil v predpise držav članic).*

# Zgodovina...

2003-2005: **Prostorski vplivi sektorskih politik**; Pričakovane spremembe prostora in napoved posledične preobrazbe mestnega in podeželskega prostora z modelom za podporo odločanju; MŠZŠ in MOP v okviru CRP »Konkurenčnost Slovenije 2001-2006«

2006-2008: **Spremljanje in presoja prostorskih vplivov sektorskih politik**; ARRS in MOP v okviru CRP »Konkurenčnost Slovenije 2006-2013«

2010-2012: **EATIA: Territorial impact assessment**, program ESPON (European Observation Network, Territorial Development and Cohesion)

# Projekt EATIA - cilji

izboljšati kakovost predpisov EU s pomočjo presoj učinkov

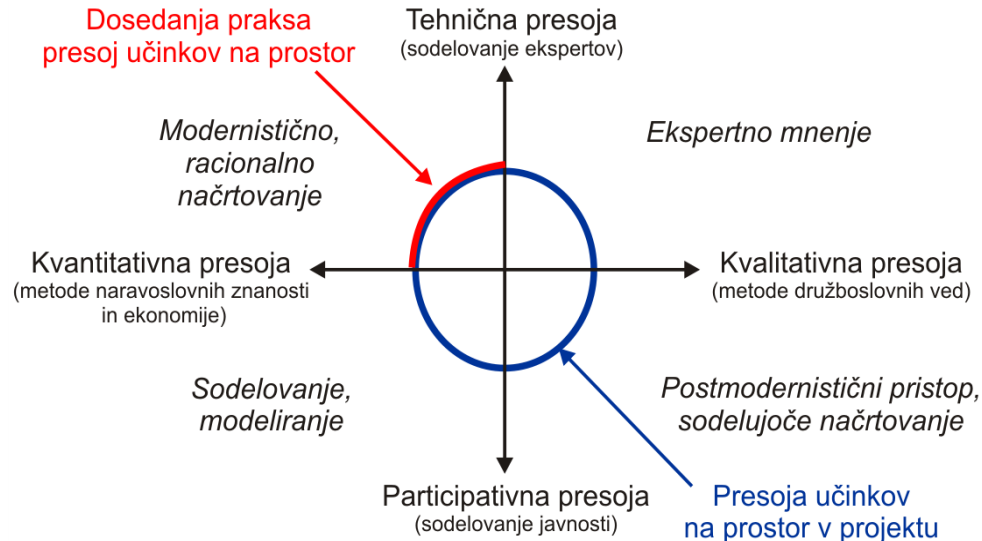

-upoštevanje potencialov in ranljivosti, ki izhajajo iz prostorskih značilnosti ter ciljev opredeljenih na nižjih ravneh (boljša vertikalna usklajenost, prostorska občutljivost)

-upoštevanje nehotenih in stranskih učinkov sektorskih politik na druge sisteme (horizontalna usklajenost)

# Pristop EATIA

- Brez dodatnih administrativnih postopkov
- Bottom-up: pogled držav članic, regij, lokalnih skupnosti.
- Poudarek na vrednotenju učinkov, namesto na napovedovanju
- Manj zahtevni postopki zbiranja, procesiranja in modeliranja podatkov, več kvalitativnih pristopov in aktivnega sodelovanja

# Rezultati

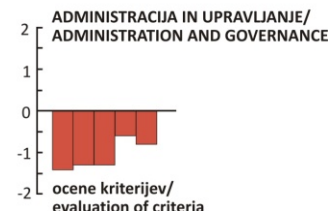

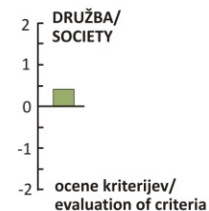

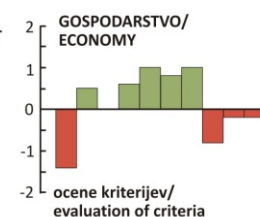

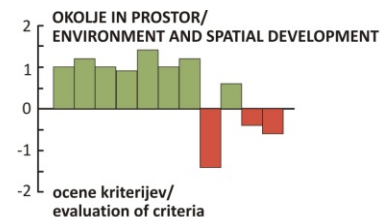

## testna izvedba TIA za 4 direktive:

habitatna,  
raba OVE,

energetska učinkovitost stavb,  
predlog SEVESO III

- pozitivni okoljevarstveni učinki
- negativni gospodarski, družbeni in upravljavsko-administrativni učinki.
- razlike v učinkih med regijami
- razlike v oceni pomena učinkov glede na raven vrednotenja; EU, nacionalno ali lokalno.
